Emerging Markets Information Service (EMIS) provides extensive, in-depth business intelligence on more than 30 of the world's main emerging economies in Asia, Central and Eastern Europe and Latin America.

Company Data
EMIS consists of company profiles & in-depth financial data for more than 1.6 million emerging market private and public companies.

Gain quick insight into an individual company’s history, financial performance and industry ranking.

User-Friendly Service
Easy-to-use translation tools ensure you always see the important information you need in local language or in English.

Built-in charting capabilities, export to Excel functionality, report builders and automated email alerts allow you to easily analyze, extract, create and receive information, how you need it and when you need it.

Company Screener
EMIS’s powerful screening and targeting tool to identify potential buyers, investments, acquisitions, lenders, and strategic partners across 1.6 million public and private companies.

To access ISI EMIS, follow these simple steps:
